

.NET DEVELOPER TEST

Vacancy Name:

.NET Developer

Rules:

Once this document has been sent by Alset, the participant is going to have a period of 24 hrs. to resolve it, attach all the solutions and send them out.

Description:

The test consists in the following:

Create a .NET MVC or .NET Core MVC Website that will allow researchers to upload journals in PDF, any researcher can subscribe to any researcher to see their journals, you must not allow to download the journal, view only.

Assessments:

Code quality, good practices, documentation and responsive graphic design of the front-end is going to be evaluated. The project must be using a Local Database, so it compiles and works as soon as we debug it.

All the given solutions must be sent in one .zip or .rar file.
